## How to...

### Step 3

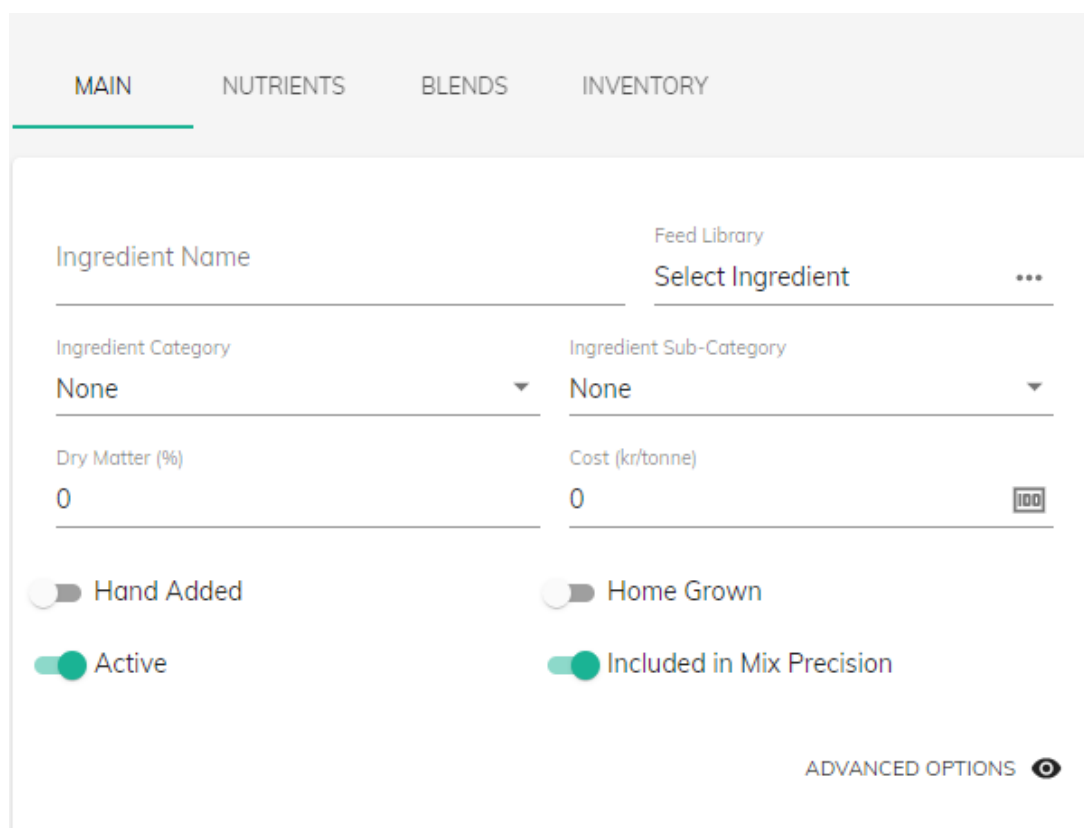

Press “+ new” in the top menu.

### Step 4

Fill out Ingredient Name, Category and so on.

If needed, you can swipe to note if the ingredient is “hand added”, “home grown”, etc.

A screenshot of the 'MAIN' tab in the CowConnect app. The top navigation bar has 'MAIN', 'NUTRIENTS', 'BLENDS', and 'INVENTORY'. The 'MAIN' tab is selected. Below the navigation bar is a form for adding a new ingredient. The form has two columns. The left column contains: 'Ingredient Name' (text input), 'Ingredient Category' (dropdown menu with 'None' selected), and 'Dry Matter (%)' (text input with '0'). The right column contains: 'Feed Library' (text input with 'Select Ingredient' and a three-dot menu icon), 'Ingredient Sub-Category' (dropdown menu with 'None' selected), and 'Cost (kr/tonne)' (text input with '0' and a '100' button). Below the form are four toggle switches: 'Hand Added' (off), 'Home Grown' (off), 'Active' (on), and 'Included in Mix Precision' (on). At the bottom right is a link for 'ADVANCED OPTIONS' with an eye icon.

### Step 4

Remember to press “Save” in the upper right corner.
